The origin of the world: The cat's out of the bag--in 3 luscious dimensions First, The Big Book of Breasts, then The Big Penis Book, The Big Book of Legs, and the weighty Big Butt Book. What could follow but The Big Book of Pussy, an in-depth exploration of the female pudendum, that coveted orifice man spends nine months trying to escape, and a lifetime attempting to reenter? And what could follow that but The Big Book of Pussy 3-D? In 220 pages, featuring 110 black and white photos converted to sublime 3-D by the nerdy little genius Jon Schnitzer and his crew at The Brain Factory, The Big Book of Pussy 3-D doesn't just contain the same photos from the original volume, but also many never-before-seen photos unique to this edition. And as with the other-body parts 3-D editions, the effects are subtle on the page, but intensely dimensional when you slip on your red and blue anaglyph glasses included with this volume. Fans of the untrimmed wild-caught pussy, take note that hair provides one of the best subjects for 3-D viewing, demanding meticulous hand conversion by the 3-D artist with a full and fluffy viewing pay-off. Text in English, French, and German
