Tommy The Trout 150mm (6") Qty 1

Big predators love nothing better than a fat, juicy-looking trout. It's well-known that the biggest predators grow up feeding on trout and several record pike catches have been made in trout waters. In other words, Tommy the Trout is the most-wanted prey from the moment he hits the water.

Amazingly lifelike down to the smallest detail, with two rigging options. The front eyelet gives Tommy a shallower running depth and the top eyelet makes for a deeper, more aggressive swimming action. The detailed pectoral and pelvic fins flutter in the water to trigger more bites. And with his low buoyancy, he rises slowly to the surface when you pause in the retrieve. This natural looking, giving-up-all-hope action will help you catch more fish.

? Lead-free

? Japanese-style #3/0 carbon steel hooks

? Running depth: 2-5m

? Easy-change Slide Lock connection

? Optional eyelets for shallow or deep water use

? Full eyelet-to-hook wire construction
