### **Synopsis**

The team consisting of Rafael Aranda, Carme Pigem and Ramon Vilalta forms part of the new generation of Spanish architects whose highly refined work has made an impact on the architectural scene of recent years. Their work responds energetically to the landscape, which is accommodated, framed and nuanced as far as the actual implantation of the building - as originating concept of the design - and the choice of materials are concerned. This book presents all of RCR Aranda Pigem Vilalta's buildings from 1990 to 2002, illustrating every facet of the latter and also incorporating the most relevant constructional details of each design.
